

Todo Application

- A **User** can have 0 or many tasks
- A **Task** must have 1 category
 - The default category is "New Tasks" whenever a new task is created
- A **Category** can have 0 or many tasks

Frontend Routes for Tasks

GET /:userId/tasks/:categoryId

- Get all tasks per category id

GET /:userId/tasks/:taskId

- Get task details for the task id (rendered as a side bar on the frontend)

GET /:userId/tasks/all

- Returns all non-completed tasks grouped by category name

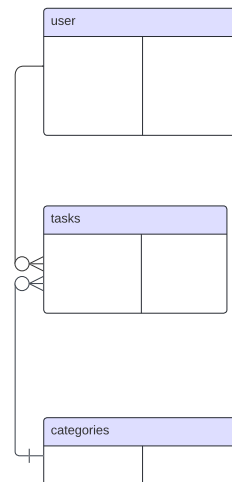

GET /:userId/tasks/completed

- Returns all completed tasks grouped by category name

GET /:userId/tasks/planned

- Returns task with deadline_date assigned
